## OBJECTIVE

A skilled MERN (MongoDB, Express.js, React, Node.js) stack developer with a strong foundation in building scalable and efficient web applications. Experienced in developing responsive, user-centric interfaces with React, backed by RESTful and GraphQL APIs built on Express and Node.js. Proficient in using MongoDB for handling dynamic, flexible data structures and ensuring high performance in data operations.

## WORK EXPERIENCE

**CyberPro Group - Canada** 2023 - 2025  
IT Manager (Remote & onsite (Rwanda Branch))

- Develop and implement IT strategies that align with business objectives, enhancing efficiency and digital transformation.
- Oversee and execute upgrades and maintenance for company websites, improving functionality, security, and user engagement.
- Manage and maintain website administrative pages, ensuring secure access and up-to-date content.

**EdgeReach Tech, Rwanda** 2023 - 2024  
Founder/CEO

- Successfully managed numerous software development projects, consistently delivering high-quality results that exceed expectations and meet tight deadlines.
- Designed multiple projects using Figma, creating user-centric, visually compelling interfaces that enhance user experience.
- Led efforts in hosting and optimizing projects for search engines (SEO), ensuring robust online presence and discoverability.

**SCHNEL MEDIA, Germany, Rwanda Branch** 2020 - 2022  
Graphic Designer & ICT officer

- Oversee editing and quality control of digital images for brand consistency and appeal.
- Maintain, upgrade, and automate software systems, with expertise in PowerShell scripting for streamlined operations.
- Lead and train teams on project portfolio management (PPM) principles, fostering a culture of continuous improvement and skill enhancement.
